Printing Instructions

To ensure this file prints at actual size, press Ctrl+P, select a custom scale of 100% (or make sure scaling is set to "None"), and use Letter-size paper in portrait orientation. Once printed, verify the scale measurement with a ruler to confirm the printout is correct.

Size Guide Using an Existing Ring

1. Place your ring over the circles below and find the circle that best matches the inside edge of your ring.
2. Note the number inside the circle; that will be your U.S. ring size (refer to a conversion chart if you need to convert it to another international size).
